Who are Tinker's Creek Watershed Partners?

Tinker's Creek Watershed Partners (TCWP) is a non-profit, 501(c)(3) watershed organization officially established in 2006. Our mission is to protect and restore water quality and **habitats of the Tinker's Creek watershed** through community partnerships.

TCWP assists communities with stormwater compliance, best management practices, and policies that help protect water resources. We also provide education and outreach to the public and elected officials to encourage watershed stewardship.

FACTS: The Tinker's Creek watershed is comprised of 24 communities, and drains 96.4 square miles of land into Tinker's Creek. Tinker's Creek is also the largest tributary to the Cuyahoga River.

What Does My Membership Provide?

Your tax deductible Individual Membership will support our efforts that promote watershed protection such as:

- The development of the annual Ohio Stormwater Conference which provides education and training to attendees.
- Stream and stormwater project planning and implementation throughout the watershed.
- Events throughout the watershed such as the **annual Tinker's Creek Watershed Festival**.
- Support to watershed communities in stormwater and watershed management, including grant writing.
- Workshops and educational presentations for the watershed communities.

**Show your support for
clean water and habitats.

What Are the Benefits of Membership?

An Individual Membership with the Tinker's Creek Watershed Partners will recognize you as an active environmental steward.

Benefits include:

- Recognition in TCWP December e-newsletters and annual report as a supporter of the Creek.
- TCWP thank you gifts, including our highly prized stylish TCWP water bottle.
- Bragging rights that you are a part of the **solution to protect the region's valuable freshwater resources and habitats.**

In addition, Individual Members are invited to participate in the TCWP Annual Board Meeting in December. This allows Members to meet our board of directors, and learn **about the latest issues affecting the Tinker's Creek watershed.**
