

Rain Barrel Workshop at the Tinker's Creek Watershed Festival

When: September 15, 2012

Time: 10:45am

Where: Twinsburg Square

(corner of Darrow and Aurora Rd in Twinsburg OH)

Rain barrels cost \$75 and they are the blue 55 gallon recycled food grade drums which can be painted any color (see image below). **Space is limited** for the workshop and registration and payment is required by August 31, 2012 to reserve a spot!

Please contact Babette Oestreicher at babette@tinkerscreekwatershed.org or 330-963-6243 by August 31, 2012 to sign up for the rain barrel workshop.

Why would I want a rain barrel? A rain barrel is a system that collects and stores rainwater from your roof that would otherwise be carried directly to storm drains and streams. Storing water during storm events can help reduce the amount of stormwater leaving our properties and help keep our waterways clean.
