The Great Lakes Water Resources Forum

Bertram Inn, Aurora, Ohio

The Only Event of its Kind in the Great Lakes

The Great Lakes Water Resources Forum is an event where you're guaranteed to meet senior level professionals who have similar responsibilities. Over two packed days, a customized agenda will introduce you to dozens of other directors and partners who share your goals. You will meet with senior representatives from the manufacturing and engineering consultant community who will share information on solutions, technologies and case studies geared towards your requested needs. There's no cost to you or your organization to attend the conference, a grant covers all hotel and conference costs including meals (travel is not covered).

The Venue

This event will be held at the Bertram Inn in Aurora, Ohio.

This stunning event venue is located in the Tinker's Creek watershed. The venue has a diversity of meeting and social space with great flow between.

Your Host

Tinker's Creek Watershed Partners (TCWP) is a non-profit 501c(3) watershed organization officially established in 2006. Our mission is to protect and restore water quality and habitats of the Tinker's Creek watershed. TCWP has been the developer of the annual Ohio Stormwater Conference, one of the largest regional events in the United States.

A Custom Agenda Based Upon Your Needs.

We will review your application to understand more about you, your organization, and how we can help support your goals. Based upon your application, a custom agenda is developed for you. This agenda will introduce you to the industry professionals, consultants and vendors you're most interested in meeting.

Through two days of presentations, one-on-one meetings, interactive sessions and social functions, you'll establish new relationships and learn more in 48 hours than you ever thought was possible!

Only 50 Can Participate. Apply Today!

We have the space and resources to host just 50 directors so please apply today. The application will ask you about current issues and challenges, recent successes, and platforms or technologies you're considering purchasing within the next 6 to 18 months.
