Your quarterly news & updates

There are always exciting projects and events going on in our watershed! Read on to learn about what we've been up to in the last few months, and what we have planned for the next.

Fall Events

TCWP hosted several public education events including rain barrel workshops, public presentations about the watershed, and worked with volunteers and partners to remove invasive species and plant native trees.

This fall we hosted an Ethics & Engineering Professional Development Day for over 100 engineers. Thank you to the Bertram Inn in Aurora for hosting!

The Northeast Ohio Regional Sewer District holds an Open House every fall. TCWP participated with our collaborative groups to bring clean water messages to thousands.

Our water quality monitoring data collection program ended in September. This has been a successful pilot year and we intend to collect even more data next season. Are you able to adopt one of our sites? Contact [Kate](#) if interested!

TCWP gave away 75 native trees at our annual Watershed Festival this fall! We also planted one larger white oak at the Twinsburg Community Center. Thank you to our business member Davey for providing trees!

Thank you for a fantastic fundraiser!!

Our 2nd annual fundraiser, Drinkers for Tinker's was a blast!

Individual Members

Thank you to our individual members! Having a reliable base of individual members is invaluable to us. Each person really does make a difference. If you would like to become an individual member or learn about what your membership helps accomplish, check out [our website](#).

Not ready to become a member? You can also make a one-time donation of any amount.

NOW IS THE TIME!

Now is the time to renew and begin your annual membership with TCWP! This membership is tax deductible and supports our mission year round. We cannot host the frequent community events and projects without your contributions. You can also purchase a membership in someone else's name as a holiday gift!

To do this, click [here](#), call the office at 330-963-6243, or email [Kate](#)

Hudson Tenbroeck Restoration

Designs are almost complete for this project! TCWP and EnviroScience are securing necessary permits, and invasive species have been treated.

Before construction begins, TCWP worked with Corey Wojcik to capture the starting point of this project.

You can see that this portion of Tinker's Creek has been channelized. The creek is slow moving and does not have a diversity of flow or habitat for fish and other life. This project will create that diversity of habitat to help Tinker's thrive.

All photos were taken by Corey Wojcik.
