WINTERIZING YOUR RAIN BARREL

- **Completely empty your rain barrel(s).**
- **Disconnect the rain barrel from the downspout and garden hose.**

- **Attach winter hole cover to downspout or flip rain catcher piece upside down.**
- **Need to replace the flexi-fit diverter winter cover? Order a new one at rainbrothers.com or contact TCWP.*

- **Store upside down or in a garage, shed, or basement.**
- **Reconnect to downspout after last spring frost.**
